A Rugged Radio for Harsh Environments

Motorola PRO Series Elite radios are IP67-rated dust-tight and water immerse

Standing up to the challenge

Imagine this scenario – The shrill scream of the fire alarm pierced the night. Within minutes, nine men assembled outside a fire engine awaiting instructions.

"This is no ordinary fire," cautioned the fire chief. "We are dealing with a burning manufacturing plant, and its storage area contains tanks which may explode if burned, so please make sure you are carrying the correct communications equipment today." The fire fighters checked their Motorola PRO5150 Elite radios briefly, noting the prominent green dot on the Li-ion battery pack, which identifies it as an FM-rated battery.

As they arrived at the fire scene, its extent became clear. Burning goods crackled noisily amongst the shouts of frightened plant workers. Hearing one another was going to be difficult.

The fire chief pulled on his helmet, oxygen tank and protective gloves. He was thankful for the lightweight radios– it was important not to burden his men any more than necessary. Easily finding the sculpted Push-to-Talk (PTT) button even with his gloved hands, he addressed his men.

"Fan out into 3 teams. Team Alpha, go around the back to make sure the fire does not spread to the chemicals warehouse. Team Beta, control the fire in front and around the sides. Team Charlie, follow me inside for rescue operations. Over and out," the fire chief spoke calmly into his radio. He knew he did not need to shout to make himself heard, given the audio clarity from the PRO5150 Elite radio.

Visibility rapidly deteriorated once they were inside the burning building. Out of the corner of his eye, the fire chief sensed something looming over him. "Collapse!" he shouted, as he and his men dived away just a split second before a 20-foot wall crumbled before them.

Picking up his axe, he searched around for his radio, and found it lying in a pool of muddy water. This did not bother him one bit – he knew the PRO5150 Elite was IP67-rated water immersible, thanks to its ruggedised casing. Moreover, the IP67-rated dust-tight and water immersible radio is designed and built to globally-recognized FM and MIL standards

A Rugged Radio for Harsh Environments

Introducing the Motorola PRO5150 Elite non-keypad and the PRO7150 Elite keypad radios, the toughest from Motorola to date. Rated IP67 dust-tight and water immersible, the radios are also resistant to knocks and drops, thanks to their ruggedised exteriors. The PRO Elite radios feel right at home in the dangerous, extreme world of emergency rescue operations.
Lightweight and compact, Motorola's smallest professional two-way radios have received Factory Mutual (FM) Approval and meet Military Standards (MIL) 810C, D, E and F.

IP67 Rated and FM Approved

IP67 Rated and FM Approved
PRO7150 Elite

Users

Fire Rescue Operations
The Motorola PRO Elite radios are lightweight and compact and will not hamper you during rescue operations. Durability is ensured with IP67-rated protection against dust and water. Simple, programmable buttons enable lightning-fast communications during tense situations. A specially sculpted ergonomic PTT button, similarly IP67-rated, ensures easy operation even with gloved hands.

Manufacturing
The rugged exterior of the Motorola PRO Elite radios conform to stringent Factory Mutual (FM) and Military Standards 810C, D, E and F, making them suitable for operation in potentially sensitive environments such as petrochemical and manufacturing plants. The radios have been subjected to Motorola Accelerated Life Testing (ALT) which ensures that they can withstand drop/shocks, rain, salt, fog, electro-static discharge and flame.
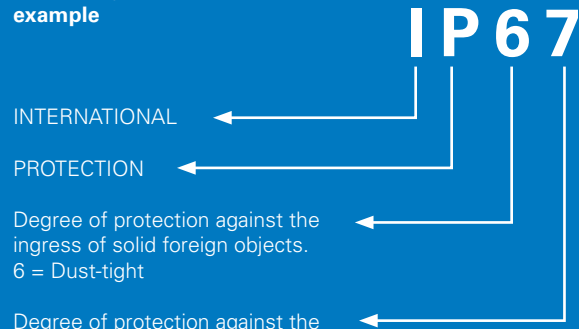

Rescue Operations
The IP67-rated Motorola PRO Elite radios are suitable for use in hurricanes, earthquakes and flood relief operations. Rescue personnel already burdened with heavy equipment and protective gear will appreciate the compact size, light weight and ergonomic design of the radios.

IP Code
The IP Code is a designation that indicates the level or amount of protection.
The IP Code designation consists of the letters IP (International Protection) followed by two numerals –
**example**

I P 6 7

INTERNATIONAL

PROTECTION

Degree of protection against the ingress of solid foreign objects.
6 = Dust-tight

Degree of protection against the ingress of water with harmful effects.
7 = Protection against the effects of temporary immersion in water (1m submersion for 30 minutes)

Motorola PRO Elite radios Key Features and Benefits

Dust-tight, water immersible, lightweight and rugged

Advanced Audio Technology
Motorola's voice compression and low level expansion technology enable crisp, clear and loud audio, allowing you to keep communicating during critical operations.

Emergency Alarm / Siren
An easily-accessible, one-touch emergency button on the PRO5150 Elite or the PRO7150 Elite will emit a piercing alarm when pressed, for urgent communications in critical situations.

Switchable RF Power Levels
Adjusts the radio's transmitting power according to the user environment, and offers a choice between maximum coverage and battery conservation. High RF power increases transmission range, while low power conserves battery life.

Repeater / Talkaround Enable / Disable
Enjoy long-range communications via a repeater, or bypass it to communicate point-to-point. The talkaround feature is useful for maintaining communications lines when a repeater goes out of service.

Tight / Normal Squelch
Enhanced audio clarity is achieved by filtering out unwanted interference. A tight squelch gives clearer playback of messages, while a normal squelch increases coverage.

Other Features
- LED Battery Gauge
- Tone Tagging
- Internal VOX
- Priority Scan
- Enhanced Signalling Systems

PRO5150 Elite – Compact & Easy to Use

Palm-sized and easy-to-use, any emergency-response team or fleet will be able to familiarise themselves quickly with the PRO5150 Elite. Its intuitive layout and programmable buttons offer fast responsiveness in emergency situations.
Time saved equals lives saved.

16 Channels
Assign up to 16 channels for easy organisation of different work groups.

LED Battery Gauge
An easily visible tri-colour battery gauge at the top of the radio provides battery level status at a glance. Green indicates a full battery; amber means half-full and red is a signal to recharge the battery.

Tone Tagging
Allows assignment of 8 different ring tones to 8 specific users or talkgroups, for audio identification of these groups.

Enhanced Signalling Features of PRO7150 Elite

PRO7150 Elite supports the following systems:

MDC1200 Signalling
- PTT-ID (encode) – Identifies your outgoing calls during transmission, so verbal identification is not necessary
- Selective Call (decode) – Allows you to receive a specific group or individua call
- Call Alert (decode) – Notifies you of incoming calls
- Radio Check (decode) – Informs other workgroups that your radio is activated or within range
- Selective Radio Inhibit (decode) – If the radio is missing or stolen, the system owner can disable it remotely

Quick Call II Signalling

DTMF Signalling

PRO7150 Elite – Compact & Versatile

The PRO7150 Elite offers a versatile two-way solution for those who require additional features to meet their expanding communication needs. Whether you are in the rugged environment of the surveillance industry or in rescue operations, the PRO7150 Elite is the radio of your choice.

14-Character Alpha Numeric Dot Matrix display
The 14-character alpha numeric display allows immediate communication of vital information such as PTT ID, radio strength indicator and signal strength indicator. In addition, the user-friendly icons make the information easy to read and understand. The keypad and display illuminations also provide the needed visibility to operate your radio in the dark.

Received Signal Strength Indicator
An easy to read on screen display indicator notifies users of signal strength in their vicinity.

Name & Tone Tagging
The capability of assigning 8 different ringing tones and visual caller IDs to 8 specific users/talkgroups enhances audio and visual caller identification for these groups.

Battery Strength Indicator
Easy to read on-screen LCD display indicator alerts users on low battery strength.

128 Channels
Provides up to a maximum of 128 channels, allowing greater flexibility in organising different work groups.

Menu Keys
The easy to navigate menu keys allow users to select the relevant functionalities at their fingertips.

Dual Tone Multiple Frequency (DTMF) Encode
Allows users easy access to local landline telephone networks or to make a private calls to other radio system users from one radio.

Dual Priority Scanning
Allows activity on different channels to be monitored, and 2 channels can be designated as priority channels which are monitored more frequently.

Enhanced Signalling Features of PRO7150 Elite

PRO7150 Elite supports the following signalling protocol:

I) MDC1200 Signalling
PTT-ID (encode/decode)
Every time the PTT button is pushed, it enables the transmission of the caller's ID and the decoding of the sender's ID.

Status/Messages (decode)
This feature enables you to replace frequently used voice calls with status messages, saving you valuable communication time.

Call Alert (encode/decode)
If your call to a radio has no response, the radio will emit an alert tone until the other party takes action.

Voice Selective Call (encode/decode)
The radio users receive a unique individual or group voice message with an alert to indicate that it is a selective call.

II) Quick Call II Signalling

III) DTMF Signalling

Enhance Your Radio's Capabilities

A comprehensive range of accessories is available so that the radio can be customised to suit your needs. Using it with the proper headsets, microphones, batteries, chargers or carrying cases can enhance your operational productivity. Motorola's accessories are specially engineered to ensure maximum performance of your radio, no matter what profession you are in.

PMMN4023
Remote Speaker Microphone
IP57-Rated (Mic Head only)

PMNN4073_R
1350mAH FM LiIon Battery
IP67-rated
Ruggerdized

Single-Unit Charger
Available in 120 volts and 220 volts

PMNN4074_R
1400mAH LiIon Battery
IP67-rated
Ruggerdized

IMPRES Multi-Unit Charger

(order 6 battery inserts PMLN5010 separately, to charge IP67 radios in Multi-unit charger)
Available in 120 volts and 220 volts

A comprehensive range of accessories for PRO Elite radios

PMLN4519 Earbud with combined Mic/PPT

Antennas:

8505644V01	Antenna VHF Helical 136-150.8MHz
NAD6567	Antenna VHF Helical 150.8-162Mhz
8505644V03	Antenna VHF Helical 162-174Mhz
PMAE4022	Whip Antenna 403-470MHZ
PMAE4025	Whip Antenna 450-527MHZ

Single Unit Chargers:

AAHTN3000	120V Single Unit Rapid Charger / US Plug
AAHTN3001	230V Single Unit Rapid Charger / Euro Plug
HTN3032	230V Single Unit Rapid Rate Charger / Argentina Plug

Multi-Unit Chargers:

WPLN4187	Impres MUC, Non-Display, 110-230V, US Cord
WPLN4189	Impres MUC, Non-Display, 110-230V, EU Cord
HTN3019	Impres MUC, Argentina Cord
PMLN5010A	Multi-Unit Charger Insert (Required to charge radios with IP67 batteries)

Batteries (capacity specified is typical value):

PMNN4074_R	Li-Ion 1400MAH, IP67 battery, ruggerdized

Batteries - Intrinsically Safe (FM Approved) (capacity specified is typical value):

PMNN4073_R	Li-Ion 1350MAH, FM IP67 battery, ruggerdized (Rated Intrinsically Safe for use in Division 1, Classes I,II,III, Groups C, D, E, F, G and Nonincendive, Division 2, Class I, Groups A, B, C, D).

PMLN4620 D-Shell RSM Earpiece

Audio Accessories:
The following audio accessories are available for use with the radio in a non-IP67 environment.
The radio is only IP67 rated when used without audio accessories.

Remote Speaker Microphones:

PMMN4022	Remote Speaker Microphone With 3.5 mm Audio Jack (IP54)
PMMN4023	Remote Speaker Microphone Without Audio Jack (IP57)

Optional Remote Speaker Microphone Accessories:

PMLN4620	D-Shell RSM Earpiece

NMN6246 Ultra-Light headset w/Boom Mic and in-line PTT

Standard Earpieces / Earsets:

BDN6781	Earbud (receive only)
PMLN4519	Earbud with Combined Mic/PTT
PMLN4657	D-Style Earset with Boom Microphone Tube
BDN6780	Earbud with Combined Mic/PTT (requires PMLN4455)
NMN6246	Ultra-Light Headset w/ Boom Mic and in-line PTT, Earbud style receiver (requires PMLN4455)

JMMN4066 Lightweight Headset w/ Boom Mic and in-line PTT

Headsets:

JMMN4066	Lightweight Headset w/ Boom Microphone and in-line PTT
RLN5590	Lightweight Headset w/ Boom Microphone (VOX compatible)
BDN6645	Heavy Duty Noise Cancelling Boom Mic Headset w/ PTT Earcup (requires RKN4093)
BDN6635	Heavy Duty Noise Cancelling Boom Mic Headset w/Vox (requires RKN4093)
NMN6245	Lightweight Single Muff Adjustable Headset w/Swivel Boom Mic and in-Line PTT switch (requires PMLN4455)
PMLN4585	Temple Transducer Headset
RMN5015	Racing Headset - Heavy Duty, Behind the Head Headset with Noise Cancelling Swivel Boom Microphone (requires RKN4093)

BDN6645 Heavy Duty Noise Cancelling Boom Mic w/ PTT Earcup

RMN5015 Racing Headset - Heavy Duty

PMLN4585 Temple Transducer Headset

Surveillance Kits:

PMLN4605	Clear Acoustic Earpiece (For PMLN4294, PMLN4418, PMLN4519)

The following Surveillance Kits Requires PMLN4455 Adapter which attaches to the Radio.
(They are compatible with NTN8370 and NTN8371.
The 2-W and 3-W kits are compatible with the RLN4922.

BDN6664	Receive Only Earpiece Beige
BDN6726	Receive Only Earpiece Black
BDN6665	Receive Only Earpiece, Extra Loud, Beige
BDN6727	Receive Only Earpiece, Extra Loud, Black
BDN6666	Receive Only Earpiece with Volume Control, Beige
BDN6728	Receive Only Earpiece with Volume Control, Black
BDN6667	2-Wire Surveillance Earpiece w/ Combined Mic/PTT, Beige
BDN6729	2-Wire Surveillance Earpiece w/ Combined Mic/PTT, Black
BDN6669	2-Wire Surveillance Extra Loud Earpiece w/ Combined Mic/PTT, Beige
BDN6731	2-Wire Surveillance Extra Loud Earpiece w/ Combined Mic/PTT, Black
BDN6668	3-Wire Surveillance Earpiece w/ Separate MIC & PTT, Beige
BDN6730	3-Wire Surveillance Earpiece w/ Separate MIC & PTT, Black
BDN6670	3-Wire Surveillance Earpiece, Extra Loud, w/ Separate MIC & PTT, Beige
BDN6732	3-Wire Surveillance Earpiece, Extra Loud, w/ Separate MIC & PTT, Black
RLN4922	Wireless Discreet Earpiece

Ear Microphone System:

JMMN4064	Ear Microphone VOX/PTT Radio Interface Module
BDN6768	Standard Ear Microphone, Black (for noise levels up to 95dB)
BDN6770	High Noise Ear Microphone, Gray (for noise levels up to 105dB)
0180358B38	Remote PTT for Ear Microphone System (optional)
0180300E83	Remote Body Push-to Talk Switch for Ear Microphone System (optional)

Audio Adapters:

RKN4093	Radio Adapter Cable (required for indicated headsets)
PMLN4455	Audio Accessory Adapter (required for indicated audio accessories)

Carry Accessories:

JMZN4023	Plastic carry Holder with Belt clip
PMLN5089	Nylon Carry Case For Minnow IP67, Display
PMLN4421	Soft Leather Carry Case w/Fixed Swivel Clip
JMZN4020	Hand Strap for radio
NTN5243	Shoulder Strap
HLN9985	Waterproof Bag

RLN4922 Wireless Discreet Earpiece

JMMN4064 Ear Mic VOX/PPT Interface Module

0180300E83 Remote Body PTT Switch for Ear Mic

JMZN4023 Plastic Carry Holder w/Belt-clip
